

High Flying Fun

Please join us for “High Flying Fun”, a part of Wieting Theatre’s 2nd Annual STEAM camps taking place Summer, 2022! You will learn how to build a kite and will be ready for the Kite Challenge with the opportunity to design and invent your own kite. You will also learn how to build and launch a straw rocket and discover how gravity and mass affects performance. This is a great opportunity for discovering the fun of science and math through hands-on experiences!

For further information, please e-mail Denise Fletcher at ldfletcher@mchsi.com
